Material Safety Data Sheet

Section 1 - Chemical Product and Company Identification

Product/Chemical Name: Aluminum Sulfate, Dry
Chemical Formula: \( \text{Al}_2(\text{SO}_4)\cdot(14-18)(\text{H}_2\text{O}) \)
CAS Number: 10043-01-3
General Use: Water Treatment Chemical
Emergency Contact: 800-282-5322

Manufacturer:
USALCO, LLC
2601 Cannery Avenue,
Baltimore, MD 21226
Phone 410-354-0100 (7:00am - 5:00pm)
FAX 410-354-1021

Section 3 - Emergency Overview

Hazards: Harmful by ingestion. Irritating to eyes, respiratory system and skin. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.

Section 4 - First Aid Procedures

Eye Contact: Immediately flush with large amounts of water for at least 15 minutes, occasionally lifting upper and lower lids. Seek medical attention.

Skin Contact: Remove contaminated clothing and wash contaminated skin with water.

Ingestion: Do not induce vomiting, drink milk or water and immediately seek medical attention. Ingestion may irritate gastrointestinal tract.

After first aid, get appropriate in-plant, paramedic, or community medical support.

Section 5 - Physical and Chemical Properties

Section 6 - Fire-Fighting Measures

Flash Point: Not applicable
Burning Rate: Not applicable
Autoignition Temperature: Not applicable
LEL: Not applicable
UEL: Not applicable
Flammability Classification: Non-flammable
Unusual Fire or Explosion Hazards: If exposed to temperatures greater than 1400°F, Aluminum sulfate will decompose generating toxic and corrosive gas.
Hazardous Combustion Products: See Section 7.
Fire-Fighting Instructions: Do not release runoff from fire control methods to sewers or waterways.

Section 7 - Stability and Reactivity

Stability: Stable at room temperature in closed containers under normal storage and handling conditions.
Polymerization: Hazardous polymerization does not occur.
Chemical Incompatibilities: Contact with alkalis and water-reactive materials causes exothermic reactions.
Conditions to Avoid: None
Hazardous Decomposition Products: Thermal oxidative decomposition of Aluminum sulfate occurs at temperatures greater than 1400°F and can produce sulfur oxides.

Section 8 - Health Hazard Information

Primary Entry Routes: Ingestion, inhalation, eye or skin contact
Target Organs: None
Acute Effects: No unusual
Eye: May cause a burning feeling.
Skin: May cause a skin rash or burning feeling.
Ingestion: May cause irritation of stomach and intestines. May cause nausea, vomiting or purging.
Inhalation: Breathing aluminum sulfate can irritate the nose, throat and lungs causing coughing, wheezing and/or shortness of breath.
Carcinogenicity: IARC, NTP, and OSHA do not list Aluminum Sulfate as a carcinogen.
Medical Conditions Aggravated by Long-Term Exposure: Aluminum sulfate can irritate the lungs. Repeated exposure may cause bronchitis to develop with cough, phlegm, an/or shortness of breath.
Chronic Effects: IARC, NTP, and OSHA list no evidence showing that any of the ingredients cause cancer or affect reproduction.

Section 9 - Spill, Leak, and Disposal Procedures

Spill /Leak Procedures: Spill procedures are dictated by site wastewater flow controls and will vary from site to site. General procedures are provided in this document, but authorization for any wastewater discharge must be obtained prior to the discharge.
Large and Small Spills: Sweep and shovel up dry chemical and place in a covered container. Wash down residue with large amounts of water and neutralize with soda ash or lime if necessary. Aluminum sulfate solutions can have a pH less than two. The neutralization of aluminum sulfate can generate carbon dioxide. Adequate ventilation must be provided.
Containment: Do not discharge wastewaters to the environment or a wastewater treatment plant without authorization from the appropriate officials.
Aluminum sulfate may absorb moisture and powders or crystals can solidify into a single mass. Protect aluminum sulfate from moisture.

Section 10 - Regulatory Information

EPA Regulations:

- RCRA Hazardous Waste Classification:
  - Not listed in 40 CFR Subpart D - Lists of Hazardous Wastes
  - Aqueous solutions may exhibit the characteristic of Corrosivity, EPA Hazardous Waste Number D002, 40CFR §261.22

- CERCLA Hazardous Substance (40 CFR 302.4): Listed CWA, Sec. 311 (b)(4)
- CERCLA Reportable Quantity (RQ):
  5,000 lbs (2,270 kg) as Al₂(SO₄)₃
  8,870 lbs (4,023 kg) as Al₂(SO₄)₃•14(H₂O)

- SARA 311/312 Codes:
  - Immediate (acute) health hazard
- SARA Toxic Chemical (40 CFR 372.65):
  - Not listed
- SARA EHS (Extremely Hazardous Substance) (40 CFR 355):
  - Not listed

- OSHA Regulations:
  - Air Contaminant (29 CFR 1910.1000, Table Z-1, Z-1-A):
    - Not listed
  - OSHA Specifically Regulated Substance (29CFR 1910.):
    - Not listed

State Regulations:

USALCO LLC has not investigated state specific requirements.

Section 11 - Exposure Controls / Personal Protection

Engineering Controls: The best protection is to enclose operations and/or provide local exhaust ventilation at the site of the chemical release. Dust emission control may be required depending on the dust generation rate. Isolation operations can also reduce exposure.

Ventilation: Can be used to control dust exposure but may require emission controls.

Administrative Controls: Good work practices can help to reduce exposures. Train employees to minimize dust while handling this material.

Respiratory Protection: Seek professional advice prior to respirator selection and use. Follow OSHA respirator regulations (29 CFR 1910.134) and, if necessary, wear a MSHA/NIOSH-approved respirator. Select respirator based on its suitability to provide adequate worker protection for given working conditions, level of airborne contamination, and presence of sufficient oxygen. For emergency or non-routine operations (cleaning spills, or storage tanks), wear an SCBA. Warning! Air-purifying respirators do not protect workers in oxygen-deficient atmospheres. If respirators are used, OSHA requires a written respiratory protection program that includes at least: medical certification, training, fit-testing, periodic environmental monitoring, maintenance, inspection, cleaning, and convenient, sanitary storage areas.

Protective Clothing/Equipment: Wear protective gloves, boots, long pants and long sleeve shirts to prevent prolonged or repeated skin contact. Wear protective chemical safety glasses, per OSHA eye- and face-protection regulations (29 CFR 1910.133). Contact lenses are not eye protective devices. Appropriate eye protection must be worn instead of, or in conjunction with contact lenses.

Safety Stations: Make emergency eyewash stations, safety/quick-drench showers, and washing facilities available in work area.

Contaminated Equipment: Separate contaminated work clothes from street clothes. Launder before reuse. Remove this material from your shoes and clean personal protective equipment.
Comments: Never eat, drink, or smoke in work areas. Practice good personal hygiene after using this material, especially before eating, drinking, smoking, using the toilet, or applying cosmetics.

### Section 12 - Special Precautions and Comments

**Handling Precautions:** Minimize and/or control dust while handling.

**Storage Requirements:** Store in a cool, dry place. Wet aluminum sulfate will corrode steel.

### Section 13 - DOT Transportation Data (49 CFR 172.101)

**Shipping Name:** Shipping name depends on the packaging. If a package exceeds the RQ, the shipment must meet the requirements of 49 CFR Parts 100–185, including the following shipping name. Otherwise, not Hazmat regulated. UN3077, Environmentally Hazardous Substance, solid, n.o.s. (Aluminum sulfate), 9, III, RQ

| CERCLA RQ: | 5,000 lbs (2,270 kg) |
| Hazard Class: | 9 |
| DOT No.: | UN3077 |
| Packing Group: | III |

**Packaging Authorizations**

a) Exceptions: 173.155

b) Non-bulk Packaging: 173.213
c) Bulk Packaging: 173.240

**Quantity Limitations**

a) Passenger, Aircraft, or Railcar: no limit

b) Cargo Aircraft Only: no limit

- **Special Provisions (172.102):** 8,146,B54,IB8,IP3,N20,T1,TP33
- **2004 Emergency Response Guidebook:** Guide 171

- **Vessel Stowage Requirements**

  a) Vessel Stowage: A

  b) Other:

Prepared By: Craig T. Owen
