Sodium Aluminate Solution

Safety Data Sheet

1. IDENTIFICATION

Product Identifier
Product Name: Sodium Aluminate, solution

Other means of identification
SDS #: 132
UN/ID No: UN 1819
Synonyms: USALCO 38, USALCO 43, USALCO 45

Emergency Telephone Number
Company Phone Number: 410-918-2230
Emergency Telephone (24 hr): 800-282-5322

2. HAZARDS IDENTIFICATION

Appearance: Viscous colorless to amber liquid.  Physical State: Liquid.  Odor: No or very mild odor.

Classification
Skin corrosion/irritation: Category 1 Sub-category C
Serious eye damage/eye irritation: Category 1

Signal Word
Danger

Hazard Statements
Causes severe skin burns and eye damage

Precautionary Statements - Prevention
Do not breathe fume/gas/mist/vapors/spray
Wash face, hands and any exposed skin thoroughly after handling
Wear protective gloves/protective clothing/eye protection/face protection

Precautionary Statements - Response
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing immediately call a POISON CENTER or doctor/physician
IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower
Wash contaminated clothing before reuse
IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing
Immediately call a POISON CENTER or doctor/physician

Precautionary Statements - Storage
Store in corrosive resistant container or a container with corrosive resistant inner liner.

Precautionary Statements - Disposal
Dispose of contents/container to an approved waste disposal facility.

3. COMPOSITION/INFORMATION ON INGREDIENTS

Synonyms: Aluminium sodium dioxide
Chemical Family: Inorganic Salt.
### Sodium Aluminate Solution

**Ingredient Name** | **CAS Number** | **% wt**
--- | --- | ---
Sodium aluminate | 1302-42-7 | 31-45
Sodium hydroxide | 1310-73-2 | 3-9
Water | 7732-18-5 | 52-66

### 4. FIRST-AID MEASURES

#### First Aid Measures

**Eye Contact**
Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Seek immediate medical attention/advice.

**Skin Contact**
Take off contaminated clothing. Wash affected area with soap or mild detergent and large amounts of water until no evidence of chemical remains (approximately 15-20 minutes). Get medical attention if necessary.

**Inhalation**
Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention immediately if symptoms are present.

**Ingestion**
Drink plenty of water. Do not induce vomiting. Seek medical attention immediately.

#### Most important symptoms and effects

**Symptoms**
Ingestion will cause corrosive burns to mouth, throat, and stomach. Contact may cause severe skin irritation and burns. May cause eye burns and permanent eye damage. Inhalation causes irritation and burning to nose and throat.

#### Indication of any immediate medical attention and special treatment needed

**Notes to Physician**
Treat symptomatically. For inhalation, consider oxygen. Avoid gastric lavage or emesis.

### 5. FIRE-FIGHTING MEASURES

#### Suitable Extinguishing Media
Dry chemical. Carbon dioxide (CO2). Water. Foam.

#### Unsuitable Extinguishing Media
None identified.

#### Specific Hazards Arising from the Chemical
Negligible fire hazard.

**Sensitivity to Mechanical Impact**
Not sensitive.

**Sensitivity to Static Discharge**
Not sensitive.

#### Protective equipment and precautions for firefighters
As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear. Move containers from fire area if you can do it without risk. Apply cooling water to sides of containers that are exposed to flames until well after fire is out. Reduce vapors with water spray. Avoid inhalation of combustion by-products.

### 6. ACCIDENTAL RELEASE MEASURES

#### Personal precautions, protective equipment and emergency procedures

**Personal Precautions**
Do not touch damaged packages or spilled material. Keep unnecessary people away, isolate hazard area and deny entry.

#### Methods and material for containment and cleaning up

**Methods for Containment**
Prevent further leakage or spillage if safe to do so. Dike and contain spill. Move containers from spill area.

**Methods for Clean-Up**
Cover liquid spill with sand, earth or other non-combustible absorbent material. Place in appropriate containers for disposal.
7. HANDLING AND STORAGE

Precautions for safe handling
Advice on Safe Handling
Wash thoroughly after handling. Use personal protection recommended in Section 8. Do not breathe fume/gas/mist/vapors/spray.

Conditions for safe storage, including any incompatibilities
Storage Conditions
Keep containers tightly closed in a dry, cool and well-ventilated place. Store locked up. Store away from incompatible materials.

Incompatible Materials
Acids. Combustible material. Metals. Aldehydes. Metals such as aluminum, tin, and zinc.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure Guidelines
No exposure limits noted for ingredient(s)

Appropriate engineering controls

Engineering Controls
No special ventilation requirements. Good general ventilation should be sufficient to control worker exposure to airborne contaminants. If this product contains ingredients with exposure limits, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure below any recommended or statutory limits. Eyewash stations. Showers.

Individual protection measures, such as personal protective equipment

Eye/Face Protection
Wear chemical goggles and face shield.

Skin and Body Protection
Chemical resistant protective gloves. Wear appropriate chemical resistant clothing.

Respiratory Protection
While not normally required, respiratory protection may be required under conditions where extensive misting may occur due to insufficient or improper engineering controls.

General Hygiene Considerations
Handle in accordance with good industrial hygiene and safety practice.

9. PHYSICAL AND CHEMICAL PROPERTIES

10. STABILITY AND REACTIVITY

**Reactivity**
Not reactive under normal conditions.

**Chemical Stability**
Stable under recommended storage conditions.

**Possibility of Hazardous Reactions**
May react violently with acids.

- **Hazardous Polymerization**
  Hazardous polymerization does not occur.

**Conditions to Avoid**
Contact with incompatible materials.

**Incompatible Materials**
Acids. Aldehydes. Metals such as aluminum, tin, and zinc.

**Hazardous Decomposition Products**
None

11. TOXICOLOGICAL INFORMATION

**Information on likely routes of exposure**

**Product Information**

- **Eye Contact**
  Causes severe eye damage.

- **Skin Contact**
  Causes severe skin burns.

- **Inhalation**
  Avoid inhalation of mist.

- **Ingestion**
  Do not taste or swallow.

**Information on physical, chemical and toxicological effects**

- **Symptoms**
  Please see section 4 of this SDS for symptoms.

**Delayed and immediate effects as well as chronic effects from short and long-term exposure**

- **Carcinogenicity**
  This product does not contain any carcinogens or potential carcinogens as listed by OSHA, IARC or NTP.

**Numerical measures of toxicity**
Not determined

12. ECOLOGICAL INFORMATION

**Ecotoxicity**
An environmental hazard cannot be excluded in the event of unprofessional handling or disposal.

**Persistence/Degradability**
Not determined

**Bioaccumulation**
Not determined

**Mobility**
Not determined

**Other Adverse Effects**
Not determined
13. DISPOSAL CONSIDERATIONS

Waste Treatment Methods

Disposal of Wastes
Disposal should be in accordance with applicable regional, national and local laws and regulations. EPA Hazardous Waste Code: D002 (Corrosive) if the pH is >12.5.

Contaminated Packaging
Disposal should be in accordance with applicable regional, national and local laws and regulations.
