DelPAC 2450

		19112	-015
	Safety Data She	eet	
	1. IDENTIFICATION	4	
<u>Product Identifier</u> Product Name	Aluminum Chloride Hydroxide Sulfat	te Solution	
Other means of identification SDS # 102		<u>Manufacturer</u> USALCO, LLC	
UN/ID No	UN1760	2601 Cannery Ave Baltimore, MD 21226	
<u>Recommended use of the chemica</u> Recommended Use	al and restrictions on use Water treatment chemical.		
Emergency Telephone Number Company Phone Number Emergency Telephone (24 hr)	410-918-2230 800-282-5322		
	2. HAZARDS IDENTIFICA	ATION	
<u>Appearance</u> Clear, Colorless to am	nber Physical State Liquid	Odor Negligible	
<u>Classification</u>			
Irritating to eyes Corrosive to metals		Category 2 Category 1	
<u>Signal Word</u> Warning			
Hazard Statements Causes skin and eye irritation May be corrosive to metals			
Precautionary Statements - Prever Wash face, hands and any exposed Do not eat, drink or smoke when usi Wear protective gloves, and eye pro Precautionary Statements - Response	l skin thoroughly after handling. ing this product. otection. Keep only in original container.		
If on skin: Wash with plenty of water	. If skin irritation occurs: Get medical at	ttention. Take off contaminated clothing and wash Remove contact lenses, if present and easy to do.	ı it

Continue rinsing. If eye irritation persists: Get medical attention.

Precautionary Statements - Storage

Store in corrosive resistant plastic or FRP container or a container with corrosive resistant inner liner.

<u>Precautionary Statements - Disposal</u> Dispose in accordance with all applicable regulations. Subject to disposal regulations: U.S. EPA 40 CFR 262. Hazardous Waste Number(s): May be D002 under §261.22(a)(2) due to the rate of corrosion of metal.

3. COMPOSITION/INFORMATION ON INGREDIENTS

SDS No. 102

Synonyms

Polyaluminum chloride, solution

Chemical Name	CAS No	Weight-%
Water	7732-18-5	55-85
Aluminum Chloride Hydroxide Sulfate	39290-78-3	15-45

4. FIRST-AID MEASURES

First Aid Measures

General Advice	After first aid, get appropriate in-plant, paramedic, or community medical support.
Eye Contact	Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Get immediate medical advice/attention.
Skin Contact	Wash off immediately with plenty of water. Take off contaminated clothing.
Inhalation	(mist or spray) Remove from exposure; seek medical treatment if any symptoms occur.
Ingestion	If conscious give large amounts of water. Seek medical attention immediately.

Most important symptoms and effects

Symptoms Causes serious eye damage. May cause skin irritation.

Indication of any immediate medical attention and special treatment needed

Suitable Extinguishing Media	Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.
Unsuitable Extinguishing Media	None identified.
Specific Hazards Arising from the Chemical	Negligible fire hazard. Decomposition products may be toxic.

5. FIRE-FIGHTING MEASURES

Hazardous Decomposition Products Hydrogen chloride. Sulfur dioxide.

Protective equipment and precautions for firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear. Do not release runoff from fire control methods to sewers or waterways.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Personal Precautions	Use personal protection recommended in Section 8. Keep unnecessary people away, isolate hazard area and restrict entry.
Environmental Precautions	Do not release into sewers or waterways. See Section 12 for additional Ecological Information.

Methods and material for containment and cleaning up

Methods for Containment Prevent further leakage or spillage if safe to do so.

Methods for Clean-Up	Small Spills: If directed to an industrial sewer, wash down with large volumes of water. Spills can be neutralized and absorbed with soda ash or lime, but neutralization will release carbon dioxide, which can generate a breathing hazard. For large spills, dike far ahead of spill for later disposal. Contain large spills and pump into a suitable tank for disposal. Neutralize with soda ash or lime if necessary. Adequate ventilation is required due to release of Carbon Dioxide.	
	7. HANDLING AND STORAGE	
Precautions for safe handling		
Advice on Safe Handling	Ensure that all containers are labeled in accordance with OSHA regulations. Treat as a dilute acid. Avoid contact with metal, as product will slowly corrode iron, brass, copper, aluminum and mild steel. Avoid contact with skin and eyes. Use personal protection recommended in Section 8. Wash thoroughly after handling. Do not breathe dust/fume/gas/mist/vapors/spray.	
Conditions for safe storage, inclu	iding any incompatibilities	
Storage Conditions	Keep containers tightly closed in a dry, cool and well-ventilated place. Keep storage temperature below 30°C/86°F. Store away from incompatible materials. Keep only in original container.	
Packaging Materials	Store in rubber-lined, plastic or FRP vessels.	
Incompatible Materials	Metals such as aluminum, tin, and zinc. Strong alkalis.	
	8. EXPOSURE CONTROLS/PERSONAL PROTECTION	
Exposure Guidelines	No exposure limits noted for ingredient(s)	
Appropriate engineering controls		
Engineering Controls	Eyewash stations. Showers.	
Individual protection measures, s	such as personal protective equipment	
Eye/Face Protection	Wear appropriate protective eyeglasses or chemical safety goggles as described by OSHA's eye and face protection regulations in 29 CFR 1910.133. Contact lenses are not eye protective devices. Appropriate eye protection must be worn instead of, or in conjunction with, contact lenses.	
Skin and Body Protection	Wear appropriate clothing to prevent repeated or prolonged skin contact.	
Respiratory Protection	Seek professional advice prior to respirator selection and use. Select respirator based on its suitability to provide adequate worker protection for given working conditions, level of airborne contamination, and presence of sufficient oxygen. WARNING!: Air-purifying respirators do not protect workers in oxygen-deficient atmospheres.	
General Hygiene Consideratio	ons Contaminated Equipment: Separate contaminated work clothes from street clothes. Remove this material from your shoes and clean personal protective equipment. Do not eat, drink, smoke, or apply cosmetics while handling this product. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Wash contaminated clothing before reuse.	

9. PHYSICAL AND CHEMICAL PROPERTIES

Information on basic physical and chemical properties

Upper/lower flammability or explosive limitsWill not burnPartition coefficient: n-octanol/waterNot relevantSolubilitySoluble in waterVapor densitySimilar to water
Vapor pressure Similar to water

10. STABILITY AND REACTIVITY

Reactivity

Not reactive under normal conditions.

Chemical Stability

Stable under recommended storage conditions.

Possibility of Hazardous Reactions

Reacts with Zinc and Aluminum to form Hydrogen gas. Contact with strong alkalis (e.g. Ammonia and its solutions, Sodium hydroxide (caustic), Potassium hydroxide, chlorites) may generate heat, splattering or boiling and toxic vapors.

Hazardous Polymerization Hazardous polymerization does not occur.

Conditions to Avoid

Contact with incompatible materials.

Incompatible Materials

Metals such as aluminum, tin, and zinc. Strong alkalis.

Hazardous Decomposition Products

Hydrogen chloride. Sulfur dioxide.

11. TOXICOLOGICAL INFORMATION

Information on likely routes of exposure

Product Information	
Eye Contact	Causes serious eye irritation.
Skin Contact	Avoid contact with skin.
Inhalation	Avoid breathing vapors or mists.
Ingestion	Do not taste or swallow.

Component Information

Chemical Name	Oral LD50	Dermal LD50	Inhalation LC50
Aluminum Chloride Hydroxide	> 5000 mg/kg (Rat)	-	-
Sulfate			
39290-78-3			

Information on physical, chemical and toxicological effects

Symptoms

Please see section 4 of this SDS for symptoms.

Delayed and immediate effects as well as chronic effects from short and long-term exposure

Carcinogenicity This

This product does not contain any carcinogens or potential carcinogens as listed by OSHA, IARC or NTP.

Numerical measures of toxicity

Not determined

12. ECOLOGICAL INFORMATION

Ecotoxicity

An environmental hazard cannot be excluded in the event of unprofessional handling or disposal.

Chemical Name	Algae/aquatic plants	Fish	Toxicity to microorganisms	Crustacea
Aluminum Chloride		1460 - 1500: 48 h		
Hydroxide Sulfate		Leuciscus idus melanotus		
39290-78-3		mg/L LC50 static		

Persistence/Degradability

Not determined

Bioaccumulation

Not determined

Mobility

Chemical Name	Partition Coefficient
Aluminum Chloride Hydroxide Sulfate	3
39290-78-3	

Other Adverse Effects

Not determined

13. DISPOSAL CONSIDERATIONS

Waste Treatment Methods

Disposal of Wastes	Disposal should be in accordance with applicable regional, national and local laws and regulations. Subject to disposal regulations: U.S. EPA 40 CFR 262. Hazardous Waste Number(s): May be D002 under §261.22(a)(2) due to the rate of corrosion of metal.			
Contaminated Packaging	Disposal should be in accordance with applicable regional, national and local laws and regulations.			
14. TRANSPORT INFORMATION				

<u>Note</u>	Please see current shipping paper for most up to date shipping information, including exemptions and special circumstances.
